More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink.

Exhaustively researched and updated, South Asia 2019is an in-depth library of information on the countries and territories of this vast world region. General Survey Essays by specialists examine issues of regional importance. Country Surveys Individual chapters on each country, containing: - essays on the geography, recent history and economy of each nation - up-to-date statistical surveys of economic and social indicators - a comprehensive directory providing contact details and other useful information for the most significant political and commercial institutions. In addition, there are separate sections covering each of the states and territories of India. Regional Information - detailed coverage of international organizations and their recent activities in South Asia - information on research institutes engaged in the study of the region - a survey of the major commodities of South Asia - bibliographies of relevant books and periodicals. Additional features - biographical profiles of almost 300 prominent individuals in the region.

Offering new services is a great way for your organization to drive traffic and boost revenue, and what better foundation for these services than IP? This much is a given. The difficulty is uniting business and technical perspectives in a cohesive development and deployment process. Meeting this challenge is the focus of Developing IP-Based Services. The only book of its kind devoted exclusively to IP-based services, it provides a blueprint for all the engineers, managers, and analysts who must come together to build these services and bring them online. Inside, you'll find just the right balance of business and technical coverage, introduced with a lucid discussion of the principles of service development and wrapped up with three case studies illustrating effective provisioning in today's marketplace. Read the chapters relating to your role, and you'll play it more successfully. Have your team read the entire book, and you'll achieve a level of collaboration and shared understanding that will quickly accrue to the bottom line. * Valuable insight from authors with extensive service provisioning and product development experience. * Written for business and technical readers at a wide range of companies, including established telecoms, ISPs, ASPs, Clecs, bandwidth brokers, and vendors. * Probes the business issues that will make or break your effort, including shortening the development cycle and choosing a competitive model. * Provides the technical coverage required for successful implementation, according to the terms of the business model you choose. * Focuses on the IP technologies that offer your service and its users the greatest value, including MPLS, Voice Over IP, and multicast. * Helps you meet tough challenges relating to security and Quality of Service. * Concludes with case studies illustrating successful service development and deployment in three companies.

This set contains 2 binders and nine books. The books are as follows: Outboard Motor Service Manual Volume 1, Outboard Motor Service Manual Volume 2, Old Outboard Motor Service Manual Volume 1, Old Outboard Motor Service Manual Volume 2, Inboard Outdrive Service Manual, Inboard Engine/Transmission and Drive Service Manual, Personal Water Vehicles Manuals, Outboard Flat Rate Manual, and Motor and Board Identification Reference Manual.

Take your baking from simple to sensational with Anna Olson's comprehensive guide to beautiful baked goods. Bake with Anna Olson features more than 125 recipes from her popular Food Network Canada show. From chocolate chip cookies to croquembouche, pumpkin pie to petits fours, Anna Olson's

newest baking book is full of delectable delights for every occasion, category and skill level. Beginner bakers, dessert aficionados and fans of her show will find over 125 recipes to take their baking to the next level, whether through perfecting a classic like New York Cheesecake or mastering a fancy dessert like Chocolate Hazelnut Napoleon. Introductory sections on essential tools and ingredients explain how to prepare your kitchen for baking success, and Anna's helpful notes throughout point you towards perfecting key details for every creation. Recipes for cookies and bars, pies and tarts, cakes, pastries, and other desserts give bakers a range of ways to savor their sweet skills, with a chapter on sauces and decors to round out your knowledge, and a chapter on breads to practice your savory savoir-faire. Gorgeous photography illustrates each recipe and guides you through difficult techniques. Baking your way through Anna Olson's favorites couldn't be easier (or more delicious!). Whether you're looking for a classic baking recipe or a new baking challenge, Bake with Anna Olson is your new go-to baking book for all occasions!

"Stark, beautiful and full of imagery." Shadows in the Light is a modern day testimony to the complexity of life and the difficulties we all face. These poems will resonate with experiences of its readers and prove poetry can speak for us all. This is the second collection of poetry by the author Betsy Reavley.

MPLS-enabled networks are enjoying tremendous growth, but practical information on managing MPLS-enabled networks has remained hard to find. Until now. MPLS Network Management: MIBs, Tools, and Techniques is the first and only book that will help you master MPLS management technologies and techniques, as they apply to classic MPLS networks, traffic-engineered networks, and VPNs. Written by the co-author of most current MPLS management standards, it provides detailed, authoritative coverage of official MIBs, examining key topics ranging from syntax to access levels to object interaction. It also offers extensive consideration of third-party management interfaces, including tools for metering traffic and predicting traffic growth and behavior. If you're a network operator, network device engineer, or MPLS application developer, you need this book to get all you can out of all of MPLS's many capabilities. * The only book devoted entirely to the tools and techniques for controlling, monitoring, debugging, and optimizing MPLS-enabled networks. * Authoritative information from the co-author of most IETF MIBs relating to MPLS and GMPLS, PWE3, and PPVPN. * Covers both standards-based and proprietary management technologies. * Includes interviews with seminal figures in the development of MPLS. * Via a companion web site, provides information on late-breaking developments in MPLS management and links to additional resources. * To be followed by a second volume presenting best-practice case studies dealing with how real companies approach the management of their MPLS networks.
