Practices in the Modern Arab World fills a gap in collection studies, a growing area of concentration within the interdisciplinary field of cultural studies. It does not give a comprehensive overview; rather, it offers case studies of collecting practices in different Arab countries, at the same time highlighting their shared histories with colonial - and neo ...

share best practice in areas of all museum and object management and its intersection with the archive sector, including topics such as: Collection management; Cataloguing; Collections care, preservation and conservation; Interpretation and display; Education, learning and outreach

~~Archives & Museums~~ Archives and Museums

Archives commonly found in museums can be divided into four categories:

- Records and documents acquired for the museum's collections by gift, purchase or loan, irrespective of their format or medium.
- Any records deposited in the museum by statutory authority. For further explanation see 'Legal controls' in

Volunteering in Collections Care
Volunteers have been supporting the work of archives and special collection libraries for many years. As programmes of work have become more widespread and structurally integrated within organisations, a demand for detailed guidance on best practice has developed.

During the period of transformation we will continue to preserve and provide access to the College's institutional archives as well as over 600 collections of deposited papers. We will still answer internal and external enquiries relating to the archives in our care and remain accessible to researchers.

Practices In The Modern Arab World
comprises a suite of documents which aim to make archaeological data, information and knowledge available, stable, consistent and accessible for present and future generations.

~~Welsh Museums Federation – National Standard and Guidance~~

...

This book deals succinctly and thoughtfully with the problems of collecting contemporary objects in museums. It aims to provide a working model for the future of contemporary collecting based on relevant debates and theories, and on past and current practices, and proposes answers to some of the many challenging questions raised:
