This market leading text provides comprehensive coverage of financial accounting and reporting to enable you to discuss and apply IFRS compliant financial statements. With the balance of theoretical principles and practical applications, this book will aid you in the advancement of your studies and professional career.

This 13th edition introduces learners to general accounting principles and the disclosure requirements of company financial statements. In this comprehensive and up-to-date publication, principles are illustrated through questions and solutions. The learner's understanding of principles is gradually broadened by an increase in the degree of difficulty of the questions that are asked. Self-study is actively encouraged by the inclusion of questions for which the solutions are available to prescribing institutions only. Changes brought about by new accounting standards, issued as a consequence of the South African Institute of Chartered Accountants' Improvement of Accounting Standards Project, have once again been incorporated in this latest edition. "Accounting Standards" is intended to satisfy the specific requirements of learners and to reduce the workload of educators.

This proceedings volume analyzes the impact of globalization on international financial flow as well as harmonized financial reporting. Featuring contributions presented at the 18th Annual Conference on Finance and Accounting held at the University of Economics in Prague, this book examines the economic consequences of the globalized world in the sphere of corporate and public finance, monetary systems, banking, financial reporting and management accounting. The global perspective is accompanied by local specific cases studies, including those from emerging markets. In addition, the combination of micro- and macroeconomic approaches provide insights on the behavior of all relevant stakeholders in the process and the results of dynamic pressures surrounding global capital markets and international investments. This book will serve as a useful resource for scholars and researchers, practitioners and policy makers in the fields of finance, economics and accounting.

"Intermediate Financial Accounting Volume 1 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for a first course in Intermediate Financial Accounting, and presumes that students have already completed one or two Introductory Financial Accounting courses. The textbook reflects current International Financial Reporting Standards (IFRS), such as IFRS 15 - Revenue from Contracts With Customers. This textbook provides a review of introductory accounting concepts and covers all topics essential to a first level Intermediate Accounting course: the conceptual framework and current landscape of financial reporting; statements of financial position; comprehensive income; cash flows and shareholders' equity; cash and receivables; revenue; inventory; property, plant and equipment; intangible assets; and intercorporate investments. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com. It also focuses on more difficult intermediate accounting topics that match prerequisite requirements for students advancing to a second level Intermediate Financial Accounting course. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here."--BCcampus website.
