following the order of operations. f is already alone on the left side of the equation, so all we have to do is calculate the right side. $f = \frac{1}{2} (8 + 25)$. First, multiply $\frac{1}{2}$ by 8. $\frac{1}{2} \cdot 8$ is 4. $f = 4 + 25$. Next, add 4 and 25.

Introduction. One says that a function $u(x, y, z)$ of three variables is "harmonic" or "a solution of the Laplace equation" if it satisfies the condition

$$\frac{\partial^2 u}{\partial x^2} + \frac{\partial^2 u}{\partial y^2} + \frac{\partial^2 u}{\partial z^2} = 0$$

Such functions were

Bookmark File
