While such a concept would go against agreements such as the Outer Space Treaty, which bans weapons of mass destruction in orbit, a few military organizations have discussed it in recent years by....

The Most Dangerous Space Weapons Ever | Space

Space weapons are weapons used in space warfare. They include weapons that can attack space systems in orbit (i.e. anti-satellite weapons), attack targets on the earth from space or disable missiles travelling through space. In the course of the militarisation of space, such weapons were developed mainly by the contesting superpowers during the Cold War, and some remain under development today.

The terrifying space weapons of the future - explosive ...

The militarisation of space involves the placement and development of weaponry and military technology in outer space. The early exploration of space in the mid-20th century had, in part, a military motivation, as the United States and the Soviet Union used it as an opportunity to demonstrate ballistic-missile technology and other technologies having the potential for military application. Outer space has since been used as an operating location for military spacecraft such as imaging and commun

Militarisation of space - Wikipedia

Key points. The Outer Space Treaty represents the basic legal framework of international space law. Among its principles, it bars states party to the treaty from placing weapons of mass destruction in Earth orbit, installing them on the Moon or any other celestial body, or otherwise stationing them in outer space. It specifically limits the use of the Moon and other celestial bodies to peaceful ...

Outer Space Treaty - Wikipedia

These existing gaps, particularly in the Outer Space Treaty, have thereby paved the way for states to embark on the path of an unchecked deployment of space weapons. While the outer space treaty bans the testing and development of weapons of mass destruction in space, it puts no strictures on the placement, development and employment of other kinetic and non-kinetic weapons in space.

The Weaponization of Outer Space and the International law ...

The Prevention of an Arms Race in Outer Space document is a 1981 UN resolution that reaffirms the fundamental principles of the 1967 Outer Space Treaty and advocates for a ban on the weaponization of space." The Ad Hoc PAROS Committee (Cttee) is a subsidiary body to the Conference on Disarmament (CoD). In 1985 after much diplomatic discussion, agreement was reached on the Cttee mandate at the CoD.
