Twenty Seven
This book focuses on
Samuel Beckett's
psychoanalytic
psychotherapy with W.
R. Bion as a central
aspect both of Beckett's
and Bion's radical
transformations of
literature and
psychoanalysis. The

recent publication of
Beckett's
correspondence during
the period of his
psychotherapy with
Bion provides a starting
place for an imaginative
reconstruction of this
psychotherapy,
culminating with Bion's
famous invitation to his
patient to dinner and a
lecture by C.G. Jung.

Following from the

course of this
psychotherapy, Miller
and Souter trace the
development of
Beckett's radical use of
clinical psychoanalytic
method in his writing,
suggesting the
development within his
characters of a literary-
analytic working
through of transference
to an idealized auditor
known by various

names, apparently based on Bion. Miller and Souter link this pursuit to Beckett's breakthrough from prose to drama, as the psychology of projective identification is transformed to physical enactment.
