The Lean Toolbox for Service Systems is the first book that attempts to assemble a comprehensive set of tools for lean service and administration. Other publications have dealt with only a segment of the tools or a segment of the range of service systems. The book is a result of several years' work in Lean Service at the Lean Enterprise Research Centre, Cardiff Business School, and the service management programme at the University of Buckingham.

John Bicheno The Lean Toolbox For Service Systems

In service a skilled and flexible
workforce is the way to deal with
variety, not standardisation of the
customer experience !. Many lean
service tools and techniques are
presented in the book. It is a
toolbox of different approaches
for different circumstances,
rather than a narrative of a single
"best" method.
